YEAR
WARRANTY

3" IPS TFT Display

Enjoy crisp visuals on a 3" 480x640 resolution screen, seamlessly bonded to tempered glass for enhanced durability and clarity.

Customizable Display

Enhance your viewing experience with adjustable day/night modes and brightness dimmer settings. Personalize your setup with customizable button illumination in 7 vibrant colors.

Smart Power & Performance

Enjoy powerful audio with dual 2x 45W outputs across two zones, driven by a high-performance TDA7851 chip with 2 OHM support. Built-in Zero Current Memory retains your settings even without power, while a low battery voltage alert keeps you informed with an audible warning.

Marine-Grade Durability

Conformal coating on PCB, IP66-rated water resistance, UV protection (ASTM D4329), and salt spray resistance (ASTM B117) for long-lasting performance in harsh marine environments.

Multi-Zone Audio

Control your audio across three zones with 4V RCA outputs for premium sound quality, along with subwoofer volume adjustment, a 10-band EQ with bass, treble, balance, and loudness settings for precise sound customization.

Boost Your Setup

Upgrade your system with optional inputs like a DAB tuner, rear camera integration with trigger, and a rear Bluetooth microphone for hands-free audio control. Enjoy effortless control with a wired remote input, fully compatible with the Aquatic AV WR7 remote.

All-In-One Audio Connectivity

Stay entertained and in control with AM/FM/WB radio, advanced Bluetooth support (A2DP, AVRCP, HFP, PBAP), Apple Bluetooth Album Art display, rear USB/AUX input options, and dedicated subwoofer volume control for deep, customizable bass.
